You will not be able to access your ARBookGuide before you have activated your account. Information and an activation code will have been sent to your main contact for Accelerated Reader.

Importing a Book List

Step 1:

Export your full book catalogue from your Library Management System into a single sheet in an excel document. The document only requires Titles and Authors, with the ISBNs being optional. The CSV file needs to meet the following criteria to import successfully:

- The columns should be headed with and ordered Title, Author, ISBN
- Author must be formatted: Surname, Forename e.g. Dahl, Roald
- ISBNs must be formatted as a number
- No field on the file can contain more than 100 characters.
- If you have more than one copy of a book, list the book duplicate times

18	Bad Girls	Wilson, Jacqueline	0-440-86356-2

Step 2:

Log in, and from the homepage select **Imports** and then **CSV**.

Step 3:

Browse your computer for the prepared book list and select the file. For the initial import de-select the option to **Only include books that are not marked as owned already**. If you are reimporting a full catalogue, but only require labels for new books/previously unmatched titles, leave this option selected. Click **Request Import**.

Step 4:

Allow a few minutes to import the file. You should see **In Progress** and then **Successful**. If the import fails, please contact our Support Team at support@renlearn.co.uk or on 0207 184 4000.

Manually creating a list

Step 1:

From your AR Book Guide home page select **List Management** and **Create List**.

Step 2:

Name the list and click save. Select **Search to add titles** on the bottom right of the table.

Step 3:

Choose your searching method from the drop down box. If you are searching by ISBN, you should cross-check non-matches by Title or Author. If using a barcode scanner, please remember to put your cursor in the search bar to the right.

Step 4:

Complete your search and select the desired book(s) from the list of matching results using the tick-box in the left-hand column, then click on **Add Selected Titles to List**.

Step 5:

Click on the title of the book and enter the number of copies you own. If you only have one copy this is not necessary. **Repeat Step 4 and 5 until you have added all your books.**

Step 6:

Go to **View** list and select all books using the box in the top-left of the list and click the **Tick Book** button (a circular button just above the list of books). Repeat this for each page of books.

Printing your labels:

Step 1:

From the AR Book Guide homepage go to **List Management** and **select the booklist** you would like to print labels for and select **Book Labels**.

Step 2:

Within the preferences select **Match number of books owned per title** and select the school from the drop down box.

The screenshot shows a form titled "Book Label Report" with the following options:

- List: Fiction (dropdown menu)
- Number of Labels:
 - Number of labels to print per title: 1
 - Match the number of books owned per title
- Junior Library (dropdown menu)
- Sort:
 - Quiz Number
 - Title
 - Author Last Name
 - Book Level
 - Points

Step 3:

Select how you would like to sort your labels and click **View Report**. A PDF will generate, this can be printed directly on to Avery L7159 labels. Please check your printer is correctly aligned by printing off one page as a test before printing the entire document.
